ABOUT ME

I am a passionate and responsible software developer in training, with strong skills in web development and problem-solving. I stand out for my adaptability, teamwork, and commitment to continuous learning. I enjoy creating efficient and innovative solutions, and I am focused on growing professionally in the technology field.

EXPERIENCE

2024 Software Programming Technician (SENA)

I obtained my certification at SENA and developed a real project using SQL, HTML, and CSS, applying database design and web development skills.

2025 Programming Languages

I continue building projects using technologies such as NoSQL, HTML, CSS, Java, JavaScript, Node.js, and Angular, strengthening my frontend and backend skills while learning new tools.
